

Phrazer®- Patient Entertainment Portal and Services (PEPS)

Phrazer® modernizes in-room entertainment services by offering a Patient Entertainment Portal and Services (PEPS) with extensive a la carte access to high speed internet and entertainment options including local TV, movies, games, podcasts/vodcasts, audiobooks and much more. Calming sounds and images as well relaxation engagements support patients to alleviate discomforts, reduce level of pain and anxiety, and enjoy a better experience while in your care.

Demographically Matched Features

Phrazer's novel Communication and Information Theory Empowered (CITE) Methodologies offer equal and personalized engagement across demographics - regardless of language, age, culture, level of literacy.

Simple and intuitive interfaces are aligned with the patients needs and preferences and guide the patient through medical engagements and entertainment options. Demographically matched features allow equal access to entertainment services across demographics. Phrazer's PEPS offers any language - from Mandarin, Punjabi over Arabic and Sign Language to indigenous languages. Age appropriate, personalized interfaces are at the core of Phrazer's CITE Methodologies.

Secure Payment Gateway

Patients can purchase entertainment services through Phrazer's payment gateway. As an authorized JP Morgan Chase Card Services merchant, Phrazer accepts all major credit cards, ACH, and other payment methods. Services include industry leading fraud protection and reporting tools.

Shared Revenue Pathways

Phrazer's PEPS offer novel revenue avenues to the health system. Revenue generated through these programs is shared with the health system on a quarterly, monthly or daily basis. The Phrazer PEPS can flag activity and split out payment or portions to target revenue sharing accounts.

Your Benefits:

- Novel Revenue Avenues
- Improved Patient Experience
- Meeting Infectious Disease Control Standards
- Fully interoperable and adaptable to your needs
- No patient training required
- Platform for Innovation
