Phrazer Enabled Acute Care Setting

The Solution

Phrazer performs vital yet monotonous tasks, EMR data entry and resource coordination while staff is simultaneously provided key information via Multi-Path Real-Time Messaging (MRM). With Phrazer the patient is never alone and always progressing care. Phrazer enables staff to work at top of licensure, effectively employ critical thinking and spend more meaningful time with the patient.

Phrazer Program

Phrazer offers any CITE engagement in any language including:

- Admission
- Pain Management
- Leader Rounding
- Shared Decision Making
- Patient & Family Education
- Informed Consents
- Readmission Assessment
- Process Adherence (staff)
- Competency Development (staff)
- Nurse Call & Staff Alert System

Benefits

The Phrazer System utilizes novel CITE Methodologies and patented features offering the following benefits:

- Equal Engagement and Civil Rights Coverage
- Reduction of Charting Time
- Thaw Frozen Opportunities
- Platform for Innovation
- Secure EMR Connection
- Consolidation of Point Solutions
- Novel Revenue Pathways
- Operationalization of Previously Challenging Processes

**Harmonized
Patient, Staff and
System
Performance**
